Would Not Agree to Allow Victoria Hotel to Be Conducted for Benefit of Creditors.

### FAIRCHANCE HOTEL MATTER UP.

If Owners Can Prove Property They May Remove It—Plaintiffs Must File More Specific Charges in Suit Against Road Supervisors.

UNIONTOWN, July 14.—Attorney Lee B. Brownfield has refused the transfer of the Victoria Hotel license in New Haven by the court, which will result in the hotel remaining closed as it has been for some time. Attorney Brownfield was appointed referee in bankruptcy upon the closing of the hotel by Proprietor Bernard O'Connor. He asked the court's permission to open the hotel and run it for the benefit of the creditors until the Sheriff's or Trustee's sale was made, but the court would not agree to this. The sale is scheduled to take place July 24, but it is said that a continuance will probably be allowed and it is impossible to say how long the hotel will be closed.

A rule was granted this morning in the Ramage Hotel at Fairchance, Pa., to decide the ownership of property in the hotel. The license was refused the hotel and it was closed by Proprietor Ramage a large number of executions were issued against it. A number of items claimed goods in the hotel which were to be sold at Sheriff's sale and the sale was postponed owing to the mix-up. The rule allows the owners to prove their property and if it rightfully belongs to them they will be allowed to remove it, after which the sale will be made.

William A. Boring, who has been tipstaff at the court house for many years, was this morning on recommendation of the law committee appointed law librarian at a salary of \$40 per month to succeed the late Joseph M. Ogilvie.

The plaintiffs claim damages for a bad road between Smock and Brazzill, and claim that by reason of it Mrs. Sullenbarger was thrown from a buggy and permanently injured.

## FRIENDSVILLE WILL REMAIN DRY TOWN.

Judge Boyd's Opinion Sustains Drys Who Carried the Town by One Majority.

FRIENDSVILLE, July 14.—Chief Judge A. Hunter Boyd rendered an opinion in the case of Mitchell Brothers of Friendsville and F. C. Ries of Accident vs. E. Z. Towor, Clerk of the Court of Garrett county, in deciding that the vote in Friendsville, where the officers of that town decided that liquor should not be sold within the corporate limits of the town was legal and upholding the constitutionality of the law passed at the recent session of the Legislature prohibiting the sale of liquor within a certain prescribed distance from any church or school house within the county.

Mitchell Brothers of Friendsville sought to compel Mr. Towor as Clerk of the Court to issue them a license to sell liquor at Friendsville, declaring in the papers filed in the mandamus case that the vote was illegal, the tickets prepared and used in the election not being in accordance with the law.

Mr. Ries by mandamus also sought to compel the clerk to issue him a license to retail liquor at Accident, attacking the constitutionality of the law passed last year prohibiting the sale of liquor within a prescribed distance from any church or school building. The court in this case, as in the Mitchell case, decided for the defendant.

An effort will be made to extradite Rutsek. Machinery was put in motion with this end in view as soon as it was learned that the banker had been located. ## FIGHTING TENTH READY FOR CAMP.

Local Guardsmen Leave for Gettysburg Thursday Afternoon.

### TO DRILL IN GREENSBURG.

Tentage Will Be Moved From Army at One O'Clock and Men Will Leave Over Pennsylvania Railroad at 4:45.

Captain Harry Dunn and Lieutenant Roy Kuffer devoted yesterday all day to making ready for the movement of Company D to the annual encampment at Gettysburg. The tents and other camping paraphernalia of the company will be moved from the armory at one o'clock this afternoon and loaded in a Pennsylvania coach. The company will board the train at the depot at 4:45 o'clock and go to Greensburg.

At Greensburg there will be a lay over of two hours and a regimental drill will be a feature of the gathering there. It is expected that Companies C, D, B and I and possibly B, will participate in this drill. The remaining companies of the Fighting Tenth will be picked up en route to camp. The entire regiment will be carried to Gettysburg on one train.

The ride will be an all night one and it is expected that the train will arrive at camp at 6 o'clock Friday morning. The drill will give two days in which to get things in ship shape for Sunday. Governor Stuart and his staff will probably arrive in camp for the annual review about Wednesday or Thursday.

Colonel Richard Coulter will join the troops at Greensburg and accompany his regiment to camp. The local company will have a full company of 58 men. One of the first matters to be taken up on arrival at camp will be the selection of a second lieutenant to fill the vacancy caused by the promotion of Lieutenant Roy Kuffer.

Magistrate W. P. Clark Wednesday handed down his decision in the case of Walter Kern against John W. Cavanaugh, who asked damages in the sum of \$150 for trespass on his property and for taking cherries. The case was tried about ten days ago.

Kern alleged that he entered a house and lot from Cavanaugh for \$2 per month. This also included a potato patch and another patch for vegetables. The reservations made were the fruit from a peach and apple tree.

When the abundant crop of cherries came this year Cavanaugh entered upon the rented property and claimed that the cherries were also reserved. But the lease was examined and there was no reservation as to the cherries. However, Cavanaugh picked them, 40 buckets having been taken in the knowledge of the plaintiff and several wagon loads hauled away without his knowledge. He claimed \$100 for these and damages resulting from cherry picking.

Magistrate Clarke ignored that 70 buckets of cherries was all that could be accounted for. He gave judgment for that many. The cherries were brought to town and sold for \$1 per bucket, but Kern was allowed \$50 for them on the trees, making \$35 for the lot. In addition to this, the defendant was required to pay \$12.55 costs.

## UNBIDDEN GUESTS AT PARTY ALMOST STARTED RIOT.

Foreigners Resent "Butting In" at Leisenring and Fight Follows.

### ONE MAN IS IN HOSPITAL.

County Detective and Constables Raid Place When Things Were Happening and Make Four Arrests—Others to Follow.

George Dianko is in the Cottage State hospital with four scalp wounds, his right arm dislocated and his right arm broken, the result of a foreign fight at Leisenring No. 1 about 11 o'clock Saturday night. County Detective Frank McLaughlin and Constable Rowland have four of the defendants under arrest and are searching for four others who were mixed up in the fight.

Leisenring residents thought that the entire neighborhood were being massacred on Saturday night when they heard the cries and shouts of the men, and hastily secured County Detective McLaughlin and Constable Rowland, who descended upon the neighborhood and brought peace and quiet after a several hours' uproar. They placed under arrest Kinkofsky, John and Clement Vancosty and Paul Coter and locked them up and then went in search of the other disturbers, and though their search extended over Sunday and this morning, they have been unable to find any trace of them.

Dianko was lying on the ground near a company house when the officers arrived and was apparently dead. His condition gave rise to the rumor that a murder had been committed. It was later found that he was suffering from an overdose of beer and whiskey and this with his injuries had put him out of the running for a time. Informations were made against the men by Squire George B. Graham and a hearing set for July 20, pending the result of Dianko's injuries and the capture of others said to be implicated in the fight.

The defendants claim that Dianko and his brother were the aggressors in the fight. It is said that there were several glasses of beer on top of one of the houses and that the Dianko brothers attempted to butt into the celebration and that those owning the beer objected to their company and through this the trouble arose. Several of the defendants have small cuts and scars showing that they were in the fracas.

## BIG CROWD DRAWN AT DEDICATION.

Impressive Services Mark Opening of United Presbyterian Church.

### NEW EDIFICE IS THRONED.

Three Services Held During Day and Music Was Exceptionally Good. Local Clergymen of Other Denominations Assist at the Exercises.

Able addresses and an exceptionally excellent musical program marked the dedicatory exercises of the United Presbyterian church which took place Sunday. The three services held morning, afternoon and evening were largely attended. The auditorium and Sabbath school room were thrown together and every seat was taken. It is estimated that about 500 people attended each service. The edifice is a very handsome one and the pastor, Rev. J. J. Huston, and the congregation can well feel proud of their new place of worship.

The property was purchased from the South Side Baptist congregation, which was so small that it was impossible to support the church and carry along the debt. The original auditorium has been made larger, the ceiling has been lowered and the old metal roof and decorated in a most artistic manner. The decorations were done by Missa of Pittsburgh.

The dedicatory services were held at 11 A. M. The sermon was delivered by Rev. D. P. McGill, D. D., of Pittsburgh. Fraternal services were held at 3 P. M. Rev. A. J. Ashe, pastor of the local Methodist Episcopal Church, presided. Greetings were given by Rev. Howard S. Wilson, Rev. E. A. Palmquist, Rev. E. B. Burgess, Rev. David Jones, Rev. Thomas Lloyd, Rev. A. ### TAKEN DOWN BY EMPLOYEES.

As Car Nears Curve Man Stood Up and Was Dashed Out—Thought for a Time That He Had Been Instantly Killed.

Elmer Foltz, 23 years old, a son of D. C. Foltz and a popular young man, narrowly escaped being killed Monday afternoon at Shady Grove park when he was thrown from the roller coaster. He is now occupying a bed at the Central Hotel, where he was employed as a clerk, in a serious condition, although it is believed that he will recover from his injuries.  
Young Foltz took Monday afternoon off and went to the park where he enjoyed himself with the various amusements in operation there. He jumped aboard the roller coaster, took a seat and was enjoying the ride to the fullest extent, when for some reason he unthinkingly stood up. Just as he did so the car struck a sharp curve. He was thrown headlong from the car, his head striking a plank and his body was caught up in the rigging. He remained in this predicament for a few minutes until the park employees could release him.

He was unconscious when taken from the rigging and it was thought for a few minutes that life was extinct. Drs. Colley, McKimney and Youngkin of Dunbar were hastily summoned and rendered medical attention. Every indication pointed to his skull being fractured, but this proved untrue, although he is suffering slightly from concussion. His right arm was broken and a number of ribs were also broken by the accident. He suffered no cuts about the body but several severe and painful bruises.

He was removed to the Central Hotel at Dunbar, where it was stated by his relatives today that he appeared to be much improved, although he was suffering great pain. Young Foltz is well known in Connellsville where he has a large circle of friends.

## THE DEMOCRATIC PLATFORM SUITS THE CANDIDATE.

The Democratic Platform is a queer jumble of Brannons and undisputed issues together with an innumerable fraction of the ardent Democratic faith. It factors and demands equal rights for all.

The publication of campaign contributions.

The immediate revision and reduction of the tariff.

Enlarged powers of the Interstate Commerce Commission.

A tax on income of the corporation law in favor of labor organization.

The 4-hour day for Government employees.

A general employers liability law.

The establishment of a Department of Labor.

The upbuilding of a merchant marine without any subsidies.

A navy big enough to defend the coasts of the country.

Protection to American goods abroad.

The enforcement of the Civil Service laws.

A generous pension policy.

A national Bureau of Public Health.

Agricultural and mechanical education.

The election of Senators by a popular vote.

The admission of New Mexico and Arizona as States.

The submission of the grazing laws to the several States.

The improvement of all waterways.

Public regulation of telegraph rates and no discrimination.

The conservation of our natural resources.

The extension of the land laws to Hawaii.

Territorial rights for Alaska and Porto Rico.

The speedy completion of the Panama Canal.

Clear relations with the Pan American.

The same rules for all patents.

The Platform would not be complete unless it arraigned and condemned the Republican party and so it enumerates some of the Republican evils as follows:

Greedy and corrupt politicians representing predatory venality in politics.

The perpetration of power at the expense of the public by creating new offices.

Excessive and unproductive patronage to political and business interests.

Partnership with the trusts.

The ruin of the people.

The evils of Wall Street.

Experiments in imperialism.

The Platform like it, chief architect is prolix and rambling. It is also characterized by other Bryan weakness, notably inconsistency and inaccuracy. It demands equal rights for all while the country is still struggling with the brutal denial of Colonel Guffey's rights "Shall the People Rule?"

It asks and in the same breath answers by refusing to recognize Bryan's delegates elected by the Democratic voters of each Congressional district at an open primary and substituting other delegates because they were the personal choice of Bryan. It ostentatiously agrees with the Jeffersonian theory of the Rights of States, but in practice denies those rights. It straddles the injunction is busy in a wealth of unmeaning verbosity from which, however we gather that combat on is all right for labor but all wrong for capital. It is labeled Democracy, but when it theories runner counter to the necessities of Brannons the former are suspended or abandoned.

The pledges of the Platform with few exceptions are borrowed from the present Republican administration which has already made progress in putting them into practice while the eight indictments brought against the Republican party are as trifling and silly, so wholly unsupported by fact that the bill will be ignored by the grand jury of the country. The charges need no defending.

Upon the whole the Democratic Platform is a weak imitation of the Republican Platform, an imitation which extends even to the manner of contrasting the records of the two parties. We produce the latter for comparison.

## DEMOCRATIC

The Democratic party stands for Democracy. The Republican party stands for itself. It is aristocratic and plutocratic.

The Democrats are the champions of civil rights and opportunities for all. The Republicans are the champions of privilege and private monopoly.

The Democrats listen to the voice of the whole people and make progress. The Republicans listen to the voice of the few and make no progress.
